## CPSC, The Coleman Company Announce Recall of Mosquito Deleto™ Traps

WASHINGTON, D.C. - In cooperation with the U.S. Consumer Product Safety Commission (CPSC), The Coleman Company Inc., of Wichita, Kan., is voluntarily recalling about 136,000 Mosquito Deleto™ Traps. The mosquito trap's propane regulator can leak propane or allow an overflow of propane gas, both of which pose a fire hazard to consumers. In addition, the fuel hose attachment sold with the Back Home™ System can become damaged and leak propane, which poses a fire hazard to consumers.

Coleman has received 28 reports of traps melting or catching on fire as a result of propane leaking, and 7 reports of damage to the propane fuel hoses. No injuries have been reported.
